

# **Animal Ark Pet Hospital Animal Kingdom Pet Hospital**

## **CO2 Laser Consent Form**

Advances in Veterinary Medicine and Laser Surgery now make LASER use in our surgical procedures available to our clients. We strive to provide the best possible care for your pet and we feel that LASER surgery provides this. The main reasons for this are:

- ✓ The LASER seals raw, throbbing nerve endings... significantly reducing post-op pain for your pet.
- ✓ The LASER produces little or no blood loss for your pet, because the Laser seals the small blood vessels.
- ✓ The LASER produces little or no swelling for your pet, because the Laser seals the lymphatic vessels.
- ✓ The LASER allows precision in removal of abnormal tissue.
- ✓ The LASER may allow fewer sutures or eliminate sutures completely.
- ✓ The LASER may produce faster recovery.

I understand that LASER SURGERY is an option and understand that risk is involved with any surgery.

- **YES, I want my pet to have Laser Surgery.**
- **NO, I do not want my pet to have Laser Surgery.**
